to unleash your  
**Creative  
Expressions**

Write

Produce

# The goal of this presentation

- a glimpse for those who are testing the waters

glimmer for those who are seeking possibilities

- a gambit for those who seek guidance in forging a personal direction
- all fostered with a willingness to share.
- The session strives to initiate participants at various levels and co-construct with your participation; ideas, experiences and possibilities, related to enriching the development of Competency 3 with ICT support.

# *Differentiation*

- *“Means recognizing where students are in their learning and helping them maximize their growth by making adjustments in pedagogical practices to accommodate differences in readiness, interests and learning styles.” PFEQ Sec Cycle TWO pg 9*
- *Different strokes for different folks.*
- However, students must be *enabled*: - must have the opportunities to..

# ICT can enrich with

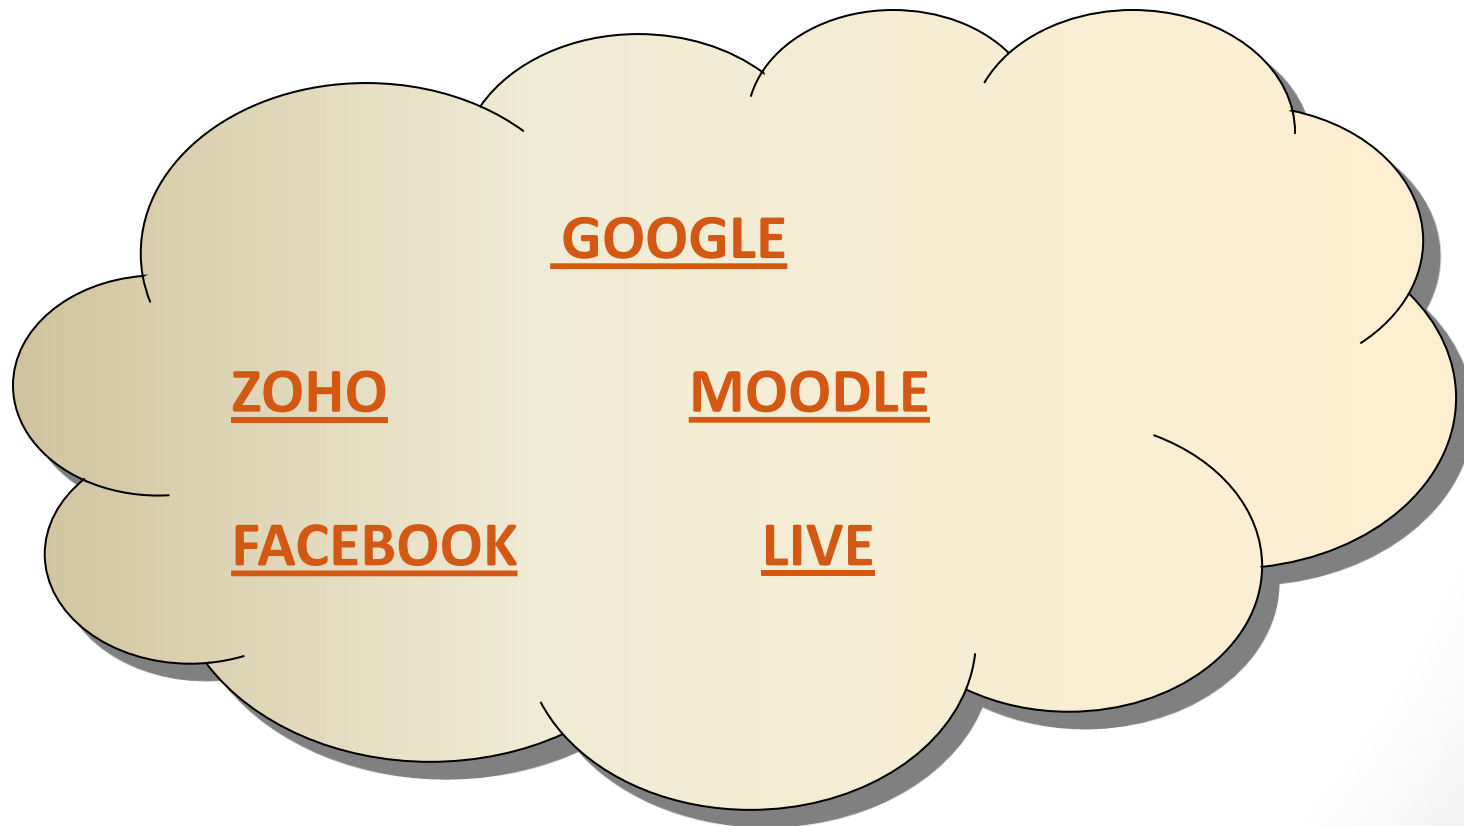

- ✓ **Diversity**
- ✓ **Originality**
- ✓ **Individuality**
- ✓ **Cooperation (complementary tasks, collective production)**
- ✓ **Collaboration (similar tasks, individual production)**
- ✓ **Authenticity**
- ✓ **Meaningful interaction with peers and experts**

# ICT can allow students to

- **see, hear, manipulate, have examples and counter examples, experiment, collect samples, organize, develop, share with others, revise, edit, submit and present in a variety of media and means whenever.**

# Some How to's?

- Online resources from the “cloud”

# Some possibilities and direction

- **Exploiting teaching and learning resources**
  - from podcasts to publishing,
  - from avatars to activities,
  - from communicating to contexts,
- **while providing opportunities and support to develop the competencies**

# Enriching the journey

# Teens in the Media

*PFEQ Sec Cycle TWO pg 12 (an example)*

How teenagers are represented in the media ?

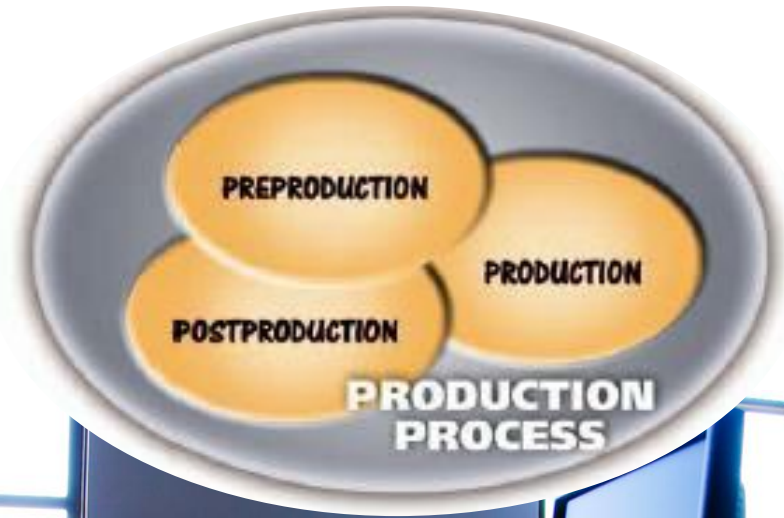

- 1) by reinvesting their understanding of a variety of media texts (e.g. TV commercials, newspaper articles, Web sites).
- 2) Students cooperate to investigate (WIKI example)
- 3) and compare that representation with their own reality.
- 4) They then produce their own media text depicting how they think teens could be more realistically portrayed.
- 5) Students come to know themselves better and gain an appreciation for how other teens live.

# Respond

- students examine TV commercials , print advertisements, radio spots, etc. and create their own media texts,
- they develop critical judgment based on how the media represent teenagers. (Through the use of the response process, they become familiar with some of the features of these texts)
- use their knowledge of media-related materials (e.g. digital camera, publishing software) and communication codes (e.g. sound, image) to produce media texts illustrating their own reality.

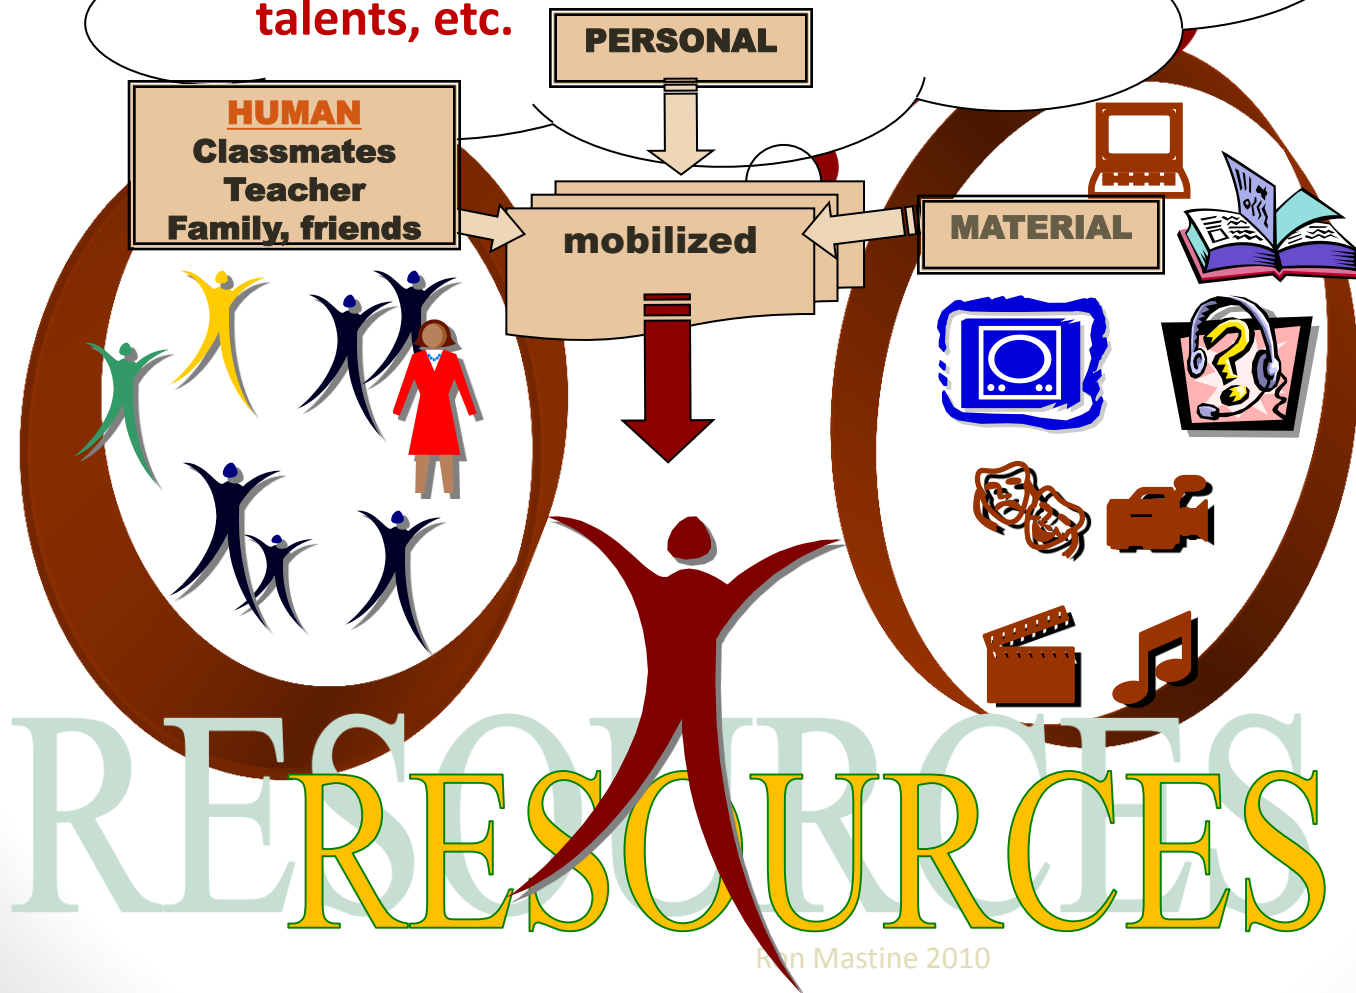

# Produce

- 1) students determine the message they wish to express.  
(research, organizers, collaborate online)
- 2) decide on the medium/format and
- 3) what type of language would best achieve their purpose and reach their audience.
- 4) Make a storyboard for a short film, write a script for a radio spot, design a poster, etc.
- 5) Prior to presenting a final version of their media text, students make adjustments, taking others' feedback into account.

# Resources are:

What you have learned at school, experiences, skills, (prior knowledge), aptitudes, interests, talents, etc.

[Search Google](#)  
[Wikipedia](#)  
[Dictionary](#)  
[Visual Dictionary](#)  
[Visual Dictionary 2](#)  
[Research](#)  
[Reference](#)

[Newspapers](#)  
[Newslink](#)  
[CBC archives](#)  
[Media](#)  
[Encyclopedia.com](#)  
[Language Tools](#)

# SecC One: *Earth Day*

- Students decide they want to see if they can make a difference in their milieu.
- They **research** forms of pollution that interest them.
- They **e-mail** a letter to **an expert** using a writing process **guided** by the teacher.
- They set up **candid camera shots** to see how others react to types of pollution

# Sec C One: *Earth Day*

- They use a production process to prepare a campaign of **posters, brochures, top ten lists**, etc. to sensitize the milieu.
- After a certain time, the students again take **candid camera shots** under the same conditions to see if their campaign has been successful.
- *Another possibility – an anti-pollution newsletter/brochure*

# Task

- How can you make a difference,
- How can we raise awareness,
- How can we celebrate, organize, ... Earth Day, an English Day
- Solve a mystery...

- Investigate, discuss and ...
- ... create, design, write, ...
- - Essential questions + guiding questions

•

---

## • Creativity

• Self-expression

• Collaboration

• Communication

# Process

- Look at other examples, (other videos, podcasts, texts, etc.) ( work on a strategy - e.g. skim & scan text, infer meaning)... link to the examples using Fleck and Trailfire.
- Look at resources, reference material (teacher created ...) Organize using IGOOGLE – ZOHO
- Create roles with specific activities to Jigsaw COOP – share digitally (post...)
- Work on language – the vocabulary, functional language ( expressions, useful sentences and questions) (references, puzzles, exercises and quizzes)
- Discuss – in class and out – “ask an expert” – video conference, poll or survey others, ...

# Process ...(2)

- Share ideas and resources – Wiki – Blog – FaceBook
- Use an organizer – bubble.us, thinkature or a Timeline (story plot) to organize and discuss ideas.
- Choose a medium – a poster, presentation, digital scrapbook, etc.
- Add a musical element – for feeling, impact, ...
- Create / play a game
- Provide links to “how to” information (templates, etc) or develop a “how to” using a digital medium.

# CONCLUSION

- Discuss the basic concept (coop – think, pair, share) (post)
- Answer an online reflection (poll)
- Add product and reflections to an online portfolio – Moodle – Wiki - ...
- Create a table of similar and different applications of the basic concept (community action, self-knowledge, ...) to share (Wiki, Blog, Web page... prior to an in class discussion.

# Evaluation

- Pinpoint pedagogical aspects of process and product. See PFEQ –competencies, key features, evaluation criteria for performance descriptions.
- Create **a table**
- Describe identifying elements of the levels: exceeds, meets, acceptable, developing ...
- Use **rubric software – adapt or investigate the theory of ... etc**

# Teacher & Student using ICT's

- Teachers **provide, create and organize supporting resources** using the ICT possibilities.
- Students **create, share, organize, etc.** to facilitate learning using ICT's.
- Basic **resources** (Googling, image banks) and **references** (dictionaries, encyclopedias,...) are a given and included but are specific and guided.

# Enrich the process and the product:...

- Investigate, describe, compile
- Experiment
- Apply & Create
- Analyze & evaluate
- Link to the PFEQ and teaching/learning goals
- Share (teach each other ~ learn from each other)
- Log the possibilities (TAG)
- Integrate into a type of learning and evaluating situation – e.g. SPEAQ-quest

# Enriching the journey

# Creating a PLN and a CLN

- PLN - Personal Learning network
- CLN - Classroom Learning Network

# Personal Learning Networks (PLNs)

- “Personal Learning Networks (PLNs) are all about using web tools such as blogs, wiki, twitter, facebook to create connects with others which extend our learning, increases our reflection while enabling us to learn together as part of a global community. PLNs increase our opportunities to ask questions and receive help compared to our normal daily face-to-face interactions.”

“Best of a PLN is it's personal! You make all the choices:  
What tools you use!

- Who you connect with!
- How you want to learn!
- When you want to learn!” [Visit](#)

# Digital Research Tools (DiRT)

- Analyze texts
- Author an interactive work
- Blog
- Brainstorm/ generate ideas
- Build and share collections
- Collaborate
- Collect data
- Compare resources
- Convert/ manipulate files
- Create a mashup
- Find research materials
- ▣ Make a dynamic map
- ▣ Make a screencast
- ▣ Manage bibliographic information
- ▣ Network with other researchers
- ▣ Organize my research materials
- ▣ Conduct linguistic research
- ▣ Share bookmarks
- ▣ Stay current with research
- ▣ Take notes/ annotate resources
- ▣ Transcribe handwritten or spoken texts
- ▣ Write collaboratively
- ▣ Visualize data

- <http://teachweb2.wikispaces.com/>

## Welcome to TEACH WEB 2.0

We are a group of curious teachers who explore and brainstorm ways to integrate Web 2.0 technologies into our classrooms. Some of us meet face-to-face at an independent school in St. Petersburg, Florida. The rest of us are from all over the world.

### Our mission:

Safely steer our students through [Web 2.0](#) tools and technologies

### Goals

- Research Web 2.0 tools and social networking sites
- Identify strengths, weaknesses, opportunities, and threats (SWOT)
- Brainstorm effective, appropriate educational applications

### Web 2.0 Tools in the Queue

Please add more to the list.

- [Almost Meet](#) (Collaborate Group Meetings)
- [Ask An Expert](#) (Connect with "real world" experts)
- [Ask an Expert Sources](#) (Find answers to every question from experts around the world)
- [AuthorShare](#) (Allows you to upload PowerPoint with its media files all in one for sharing on blogs, wikis, etc.)
- [Blackboard](#) (Interactive website for teachers and students to communicate)
- [Brain Pop for ESL Students](#)
- [Calcoolate](#) (Provides users with a simple calculator with advanced expression support, mathematic functions, etc.)
- [Chico](#) (Hosted by U of M, Instrument Encyclopedia)
- [circaVie](#) (Create and share a photo time line.)
- [C4LPT Learning Network](#) (integrated social networking site)
- [ccmixter](#) (listen to, sample, mash-up, remix, and interact with music)
- [Comics Sketches](#) (Draw your own comics)
- [CommunityWalk](#) (Create and share maps)
- [Crappy Graphs](#) (Create your own interesting graphs for presentations)
- [CutePDF Writer](#) CutePDF Writer (Create your own PDF files for free)
- [Dapper](#) (Create an RSS feed for pages that don't have RSS feeds)
- [DimDim](#) (Many levels of Meetings, Presentations, Whiteboarding, etc.)
- [Digg](#) (discover and share content)
- [Discovery streaming](#) (educational videos need password but many schools have access) - is this really web 2.0
- [Draw Anywhere](#) (create diagrams online and collaborate)
- [DropBox](#) (Centralize and store your files for free on the cloud)
- [dotSUB](#) (Alternative to YouTube, watch any video in any language)
- [Dweeber](#) (social networking site for student homework collaboration)
- [Ear Master](#) (music theory exercises and drills for music students)
- [Ejamming](#) (Collaborative network for creating, performing, and recording music together online in real time)
- [Famster](#) (Family networking site)

# Teacher's suggested ingredients in a PLN

- My first recommendation is that you read what [Sue Waters has written about PLN's](#). Sue isn't an ESL/EFL/ELL teacher, but she provides an essential step-by-step guide for how any educator can get started.
- One of my favorites is [EFL Classroom 2.0](#). Begun by David Deubelbeiss, it's an extraordinary collection of every imaginable ESL/EFL resource, and helps connect teachers from all over the world.
- Learning With Computers is an exceptional group of ESL/EFL teachers from around the world that was begun by Gladys Baya. It's part of [Webheads In Action](#), which has helped start several similar collaborations. Learning With Computers has a [very helpful Wiki](#) and an equally helpful, and active, [listserv](#). Another great Webheads group and listserv is called [evonline](#).
- Two more listservs worth joining are [The Computer-Assisted Language Learning listserv](#) from TESL and the [National Institute For Literacy's Technology Discussion List](#).
- [EFL Teaching Recipes](#) is an extremely accessible site where ESL/EFL teachers can share their lessons, including video and images. It's just beginning, and I'm sure it'll be filled-up with with ideas quickly. Go over and contribute some, as well as read the excellent ones that are already there!
- Burcu Akyol has put together an [excellent list of ESL/EFL teachers](#) you can follow on Twitter and [Shelly Terrell has done the same](#).
- [TEFL.net](#) is a worldwide forum with discussion boards, jobs listings, and a ton of other resources.
- If you have a blog, you might want to consider connecting with "Bloggers in ELT, freelancers." It's a group begun by Karenne Sylvester, and you can [read all about it here](#).
- Of course, [TESOL](#), the association of Teachers of English to Speakers of Other Languages, is a huge international organization with lots of resources. It is also one of two resources on this list that costs to join, but it does offer reduced rates depending on your situation.

<http://larryferlazzo.edublogs.org/>

# The Best Ways To Create Online Content Easily & Quickly

- Number seventeen is: **BECOME A TALKING STAR TREK CHARACTER**: Using the text-to-speech feature, [choose a Star Trek character](#) and have him/her speak, then post it on a student/teacher website.
- Number sixteen is: **DESIGN A WEIRD BACKYARD**: Create a decorative backyard, write a message using the text-to-speech feature, and post the link to your [Eddiegram](#) on website or send it to a friend.
- Number fifteen is: **MAKE A QUILT ONLINE**: [The International Quilt Study Center & Museum lets users create their own quilt](#). They can then email the link to a friend and/or post the link on a teacher or student website or blog
- Number fourteen is: **CREATE A “PHOTROPISM”**: At [Phototropism](#) you “create sculptures that react like plants to weather conditions.” You can then email the link for posting. It’s cool – in a very weird sort of way.
- Number thirteen is: **SEND A TALKING MESSAGE FROM A CHEETAH**: Type in a message, and then have [Chester Cheetah](#) use a text-to-voice feature to say what you’ve written. Next, email your message so the link can be posted on a website or blog. Better yet, try using [Embedit.in](#) so you can embed – in your webpage – any student-created work that only provides a url address
- Number twelve is: **CREATE A DATA VISUALIZATION**: [The New York Times Visualization Lab](#) looks like it’s going to be a fascinating place to visit periodically. It provides data the newspaper gathers (it looks like they are adding new information regularly) and then users can choose from a variety of different options to “visualize” it. You’re then provided a link and an embed code for your creation. Students could then post it on their own website and describe it. Not only can this be a neat place for English Language Learners to gain a better understanding and analysis of current events through the use of visuals, but it can also offer them higher-order thinking opportunities to try and identify which form of visualization portrays a more accurate perspective

# The Best Ways To Create Online Content Easily & Quickly

- Number eleven is: **MAKE A “BEAUTIFUL CONNECTON”**: Nokia lets you [choose an artistic creation](#), type a message that goes with it, and then make an audio recording. You can then email and post the url of the final result on a website.
- Number ten is: **PUT A CAPTION BUBBLE ON AN IMAGE**: [Caption Bubble](#) lets you very easily find an image on the web and add a text caption bubble. The link can then be emailed and/or posted on a student or teacher blog. I’ve posted about this site before, but it appears to have gotten even better. You can find many other similar tools on my website at [Student Photos](#).
- Number nine is: **WRITE A FORTUNE FOR A FORTUNE COOKIE**: [Unfortunate](#) lets you do just that. There are other similar web applications out there, but those seemed to have example fortunes that were inappropriate for the classroom.
- Number eight is: **DRAW A PICTURE (& TYPE TEXT)**: [Any Canvas](#) lets you draw something, and includes a lot of “bells and whistles.” You can type in text as well, and post the link to your creation on a blog or website.
- Number seven is: **BECOME A TALKING POTATO**: With [Spud Yourself!](#) you can turn your image into a talking potato (or use one of the site’s pictures). By using the text-to-speech feature, English Language Learners can develop their language skills in a fun way through writing and listening. You can post the link to your talking potato on a teacher or student blog/website.
- Number six is: **SEND A HEALTHY E-CARD**: The Centers For Disease Control have a [huge collection of E-Cards related to health](#). You can add your own message, email it to a friend/teacher, and then post the url on a website or blog.

# The Best Ways To Create Online Content Easily & Quickly (of 17)

- Number five is: **CREATE A NEAT-LOOKING ESSAY OUTLINE:** [aMaps](#) let you create a visualization of a basic essay form – state your position and provide reasons, along with examples. After completing a scaffolded outline, you're provided with a pretty neat looking visual picture of what you've developed, along with the embed code. You can also email the link to a friend or teacher for posting on a blog or website, and then people can respond to what you wrote.
- Number four: **CREATE AN INFORMATIONAL MAP:** [Show/World & Show/USA](#) (which are on [The Best Map-Making Sites On The Web list](#) ) lets you create visual representations of information using maps. Students can then embed their creations on their blog/website and describe what they've done.
- Number three is: **CREATE A TALKING ANIMAL:** [Talking Pets](#) lets you do it. You can choose a pet picture, or upload your own. Then, using the text-to-speech feature, you can have it say a short message, then email the link for posting on a blog or website.
- Number two is: **WRITE A PICTURE STORY:** [Five Card Flickr Story](#) lets you pick five photos from a group of pre-selected images from Flickr and then write a story about them. It saves your selection and story, and provides you with a link to it. No registration is required.
- And, now, the Number one tool to create online content easily and quickly is: **POST ANYTHING ONLINE IN SECONDS:** [File2.ws](#) lets you, without registering, quickly upload any document and turn it into a webpage. This is an extraordinary tool. You can see [examples of how my students used it](#) to create multilingual materials on swine-flu prevention. Students can create anything, for example, using Microsoft Word, and immediately turn it into a webpage

# Strategies – for teaching

- *Classroom Instruction that Works:  
Research-Based Strategies for Increasing Student Achievement*  
by Robert J. Marzano, Debra J. Pickering, Jane E. Pollock
- Technology- Classroom Instruction that Works
- [http://t4.jordan.k12.ut.us/professional\\_development/strategies/](http://t4.jordan.k12.ut.us/professional_development/strategies/)

# Strategies – for teaching

- Identifying Similarities and Differences
- Homework and Practice
- Setting Objectives and Providing Feedback
- Summarizing and Note Taking
- Nonlinguistic Representations
- Generating and Testing Hypotheses
- Reinforcing Effort and Providing Recognition
- Cooperative Learning
- Cues, Questions, and Advanced Organizers

# Technology- Classroom Instruction that Works

- **Identifying Similarities and Differences**

- Presenting students with explicit guidance in identifying similarities and differences
- Asking students to independently identify similarities and differences
- Representing similarities and differences in graphic or symbolic form enhances students' understanding of and ability to use knowledge
- **Technology Applications**  
[Inspiration and Kidspiration](#) .
- Word processing program “call-out” shapes such as Microsoft Word's “speak shape” or “thought shape.”
- Presentation software to fade back and forth (teacher presentation)
- Students graph numerical data with spreadsheet or graphing calculator emulator [The Graph Club](#)
- Core curriculum—compare animal similarities
- Bar graph of similar traits
- Fingerprint graph—how many have swirls, etc.
- Table creation in Microsoft Word for comparison
- Telecollaborative projects
- 

**Templates:**

[Venn Diagram](#) (p.18)

[Comparison Matrix](#) (p.19)

[Categories](#) (p.22)

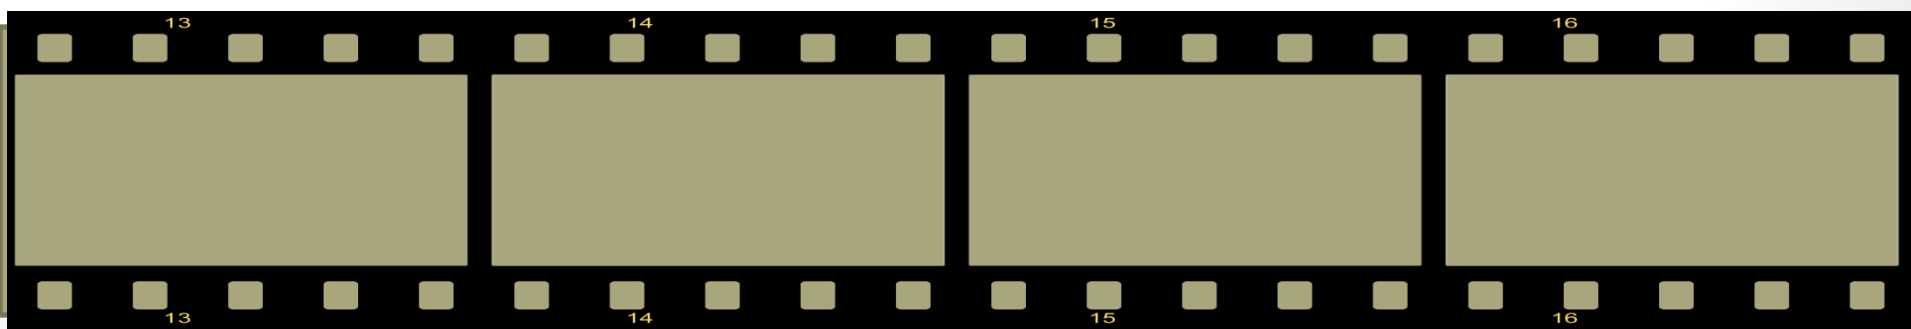

[Metaphors](#) (p.25)

[Analogies](#) (p.28)

Welcome to Google for Educators

At Google, we support teachers in their efforts to empower students and expand the frontiers of human knowledge. That's why we've assembled the information and tools you'll find on this site. Learn more about [Google for Educators](#).

Recent Projects and News

10/19/2009

**Google Teacher Academy - Applications are OPEN for DC!**

Just in time for the holidays, Google is delighted to announce that we'll be holding our [next GTA](#) in our nation's capital on Wednesday, December 9th, 2009! Applications are open now until MIDNIGHT, November 9th, so get your video cameras ready to [apply now](#). Can't wait to see you in Washington!

10/8/2009

**Google Docs: Back to School Features**

The Google Docs team recently added [specific features for the classroom](#), including an equation editor, superscripts, subscripts, translation features, printed footnotes, and improved bullets. They also added [page break](#) and ["go to page"](#) logic branching to [Google forms](#).

9/30/2009

**Hear about using Google Apps Education at Maine Township High School District**

[Sign up for a free live webinar](#) on Tuesday October 6th. Whether you're a parent, teacher, principal, or school district administrator, we hope you'll join us to hear about how Google Apps can help institutions like Maine Township High School District save money and IT resources, plus make students' lives easier with a set of tools for working together. [Post your questions](#) for the Maine Township High School District and Google teams ahead of time.

9/10/09

**Webinar Video Available: Teaching Search in The Classroom**

If you missed our webinar last month, make sure you [check out the video](#) where we discussed how to teach search in the classroom and a set of [lesson plans and resources](#) that Google Certified Teachers developed for this purpose.

9/9/09

**Create your class site using our Back to School Guides**

Google Sites are a great way keep parents and students up to date on homework and school events, or for students to work together on class projects. Our [Back To School Guides](#) will help you create a class site, project site or school administrative site.

8/21/09

**Back-to-School with Google Code University**

[Google Code University](#) is a repository of educational materials focused on computer science. The content was developed by the best schools around the country and is always Creative Commons licensed for reuse and modification by educators and students. We just posted fresh course materials contributed by USC, Cal Poly, and UW. If you would like to share your materials let us know by going to the [new submission form](#). We'd love to hear from you!

8/10/09

**Google Webinar: Teaching Search in the Classroom**

Drawing on their vast experience with search education, Dan Russell, along with Google Certified Teachers Kathleen Ferenz, Cheryl Davis and Lucy Gray will discuss how to teach search in the classroom. Having developed [Google's Search Education Lessons](#), they will discuss how you can customize the contents to the needs of your class and how guide your in-class discussions. The webinar will take place on Wednesday, August 19 at 5PM. Don't forget to [register online](#) and invite fellow educators to join us!

7/9/2009

**Free Email Security with Google Apps Education Edition for K-12s**

Keep your students safe with [Google Message Security](#), offered free to current and new K12 Google Apps schools that sign up before July of 2010. Customizable inbound and outbound filtering based on content or sender name protects the data

	A	B	C	D
	Timestamp	How many hours have you spent on your DTP project?	Which version of MS Word are you using ?	What was the most difficult part so far?
2	11/9/2009 11:29:16	less than 2 hours	2007	It is a bit more difficult for me because I do not have a lot of computer skills. however, I am working on it so that I can catch up with the class' assignments. But I'd like to say that I've been learning a lot. For example, I did not even know how to use power point and now I am able to use it for my presentations.
3	11/9/2009 11:31:35	less than 2 hours	2007	Coming up with an idea.
4	11/9/2009 11:40:12	less than 6	2003	Margins and a text box I can't copy where I want to, but I don't know why.
5	11/9/2009 11:42:40	less than 2 hours	2007	Follow the instructions correctly even though my MS Word has different functions.

## My top ten learning tools

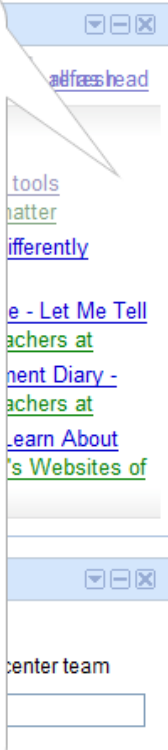

djainstlie Nov 7, 2009 7:45 PM - [Show original item](#)

This post is in response to Jane Hart's request to vote on what you think are the top ten learning tools of 2009. Results to this will be compiled for the top 100 tools for learning in 2009. For more information about this check out [Jane's blog](#). There are so many different tools that could have made this list, and as I've always said it really depends on your purpose.

Here are my top 10 learning tools of 2009

1. [twitter](#) – This is how I stay connected and how I can continue to grow. I love my PLN and #edchat
2. [wordle](#) – There are so many applications, I love this for brainstorming, analyzing primary documents, and creating great graphics for learning materials.
3. [glogster](#) – My new thing, I love the idea of having digital posters to share.
4. [google reader](#) – It's how I can keep track of all the exciting blogs out there, while optimizing my time.
5. [pbworks](#) or [wikispaces](#)- collaboration, collaboration, collaboration... need I say more? Right now I have a tie between pbworks and wikispaces.
6. [edublogs](#)- I like this blogging platform for my own blog, it is easy to use and works for me.
7. [SMART Response](#)- great formative assessment data for teachers that informs instruction daily!
8. [audacity](#)- It's free and easy and students can create professionally sounding podcasts.
9. [SMART Board](#)- The possibilities are amazing and the SMART Notebook software easy to use for teachers.
10. [Photo Story](#)- easy digital storytelling format, that anyone can use.

I'm sure if I created this tomorrow, it would be different- there are just too many tools out there. Also, my focus will probably change, but as of right NOW these tools would be my top ten. All of them can be used by educators to increase their own learning, and then use them with their students to increase motivation and learning.

My top ten learning tools

The screenshot shows a YouTube video player interface. At the top right, there is a user profile for '4086Ron' with a dropdown arrow, an email icon, and a 'Sign Out' link. Below this are links for 'Subscriptions', 'History', and a yellow 'Upload' button. The video player itself is on the left, showing a black screen with a play button icon. To the right of the player, the video details are shown: a thumbnail of a red sphere with '2.0' on it, the channel name 'jutecht', the upload date 'March 08, 2006', and a 'Subscribe' button. The video title is 'Using the Web 2.0 write up in Wikipedia this video is to help teach educators about Web 2.0 tools.' Below the title is the URL 'http://www.youtube.com/watch?v=nsa5ZTF' and an 'Embed' section with an embed code: '<object width="384" height="313"><param'. Below the embed section are links for 'More From: jutecht' and 'Related Videos'. The 'Related Videos' section shows a video titled 'Social Networking in Plain English' by 'leelefever' with 500,270 views and a duration of 1:47. The video is marked as a 'Featured Video'.

[Blog](#) [Podcasts](#) [PDAs](#) [iPods](#) [Netbooks](#) [Mobile Web](#) [About](#) [Search](#)

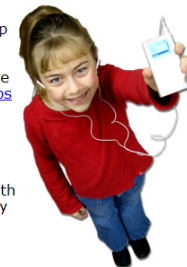

## Podcasting

Students and teachers from all over the world are learning from audio and video programs on desktop computers, laptops, iPods, Pocket PCs, Palm handhelds, and other devices. Hundreds of free educational programs are available online. Here are some examples: [Grammar Girls Quick and Dirty Tips for Better Writing](#), [English Idioms and Slang](#), [Storynory: Free Audio Stories for Kids](#), [MathGrad: Everyday Mathematics Explained](#), and [First Amendment Minute](#).

[Radio WillowWeb](#), [Coulee Kids](#), and [ColeyCast](#). With a PC or Mac and freely available software, it's fairly simple to create audio or video content, complete with introduction music and sound effects.

A podcast has a news feed (known as RSS) that allows it to be cataloged in various podcasting directories like [iTunes](#) and [Podcast Pickle](#). The popular directory, [Podcast Alley](#), has cataloged over 41,000 podcasts and nearly 2million individual episodes. If you are interested in listening to the podcasts mentioned here, launch iTunes and type the name into the search field.

In addition, the news feed allows podcatching programs like [iTunes](#) to automatically download new episodes. Once you have found the podcast you want to subscribe to, simply click its Subscribe button. There's no need

**Image in Advertising: Trivial or Strategic?**  
 Publié le : 2008-09-03 10:50:57

In the following Learning and Evaluation Situation student will explore the power of images used in advertisements today. They will go behind the scenes of the advertising world to discover how companies go about their business and how they put together the images we see in their ads. At the end of the situation, they will create their own media message.

### DigiTales

#### The Art of Telling Digital Stories

Home About StoryKeepers' Gallery DigiTales Tools Workshops Evaluating Projects Resources

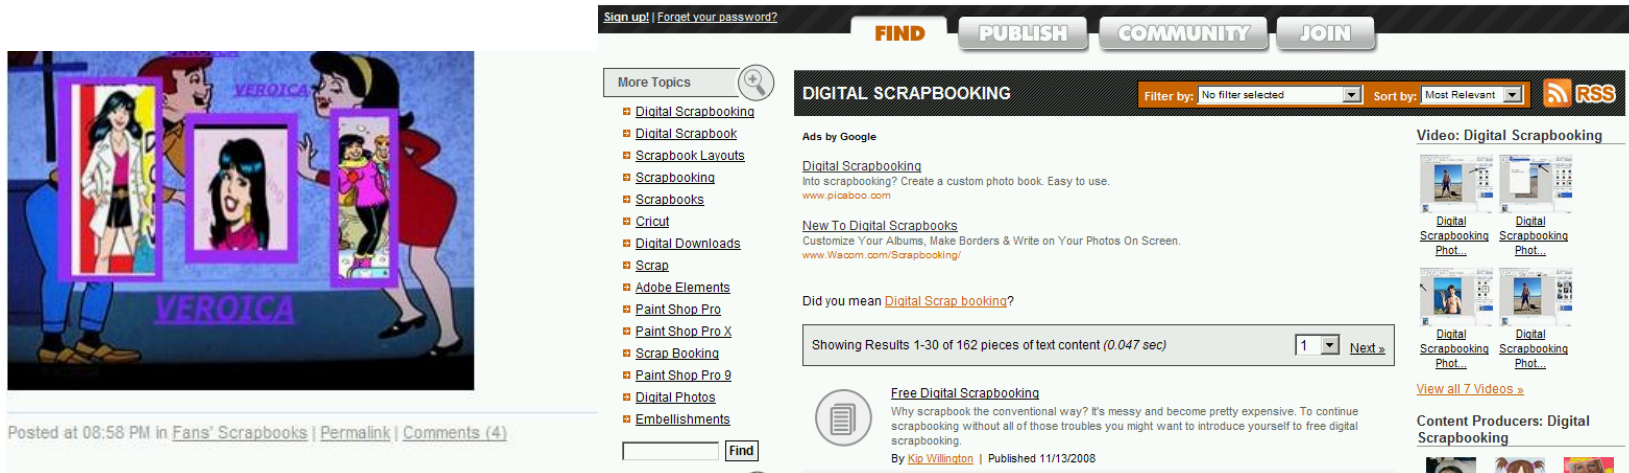

#### Seven Steps to Create a DigiTales Story

This is a general overview for crafting your story into a 3-5 minute digital movie. The process of making a digital story can be organized into four separate phases. Anyone who has learned the stages of writing will feel comfortable with working in these progressive and sometimes overlapping phases. May the seven steps outlined within the phases help guide you in translating your imagination and talents into a story you will be proud to tell. After all the guidelines, steps and rules-of-thumb, the most important element of a successful digital story is to have fun!

Pre-Production Phase			Production Phase		Post Production Phase	Distribution Phase
1 Writing a Narrative Script	2 Planning the Project	3 Organizing Project Folders	4 Making the Voiceover	5 Gathering and Preparing Media Resources	6 Putting it ALL Together	7 Applause, Applause

# Create a Digital Scrapbook

- There are lots of resources on the Internet - here are a few:

The screenshot shows a website interface for digital scrapbooking. At the top, there are navigation buttons: "FIND", "PUBLISH", "COMMUNITY", and "JOIN". Below these, there's a search bar and a "More Topics" section with links like "Digital Scrapbooking", "Digital Scrapbook", "Scrapbook Layouts", "Scrapbooking", "Scrapbooks", "Cricut", "Digital Downloads", "Scrap", "Adobe Elements", "Paint Shop Pro", "Paint Shop Pro X", "Scrap Booking", "Paint Shop Pro 9", "Digital Photos", and "Embellishments". The main content area is titled "DIGITAL SCRAPBOOKING" and includes a "Filter by:" dropdown (set to "No filter selected") and a "Sort by:" dropdown (set to "Most Relevant"). There's an "RSS" icon. Below this, there are "Ads by Google" for "Digital Scrapbooking" and "New To Digital Scrapbooks". A "Did you mean" section suggests "Digital Scrap booking?". A search results box shows "Showing Results 1-30 of 162 pieces of text content (0.047 sec)". A "Free Digital Scrapbooking" section explains why scrapbooking is messy and expensive and offers a free alternative. The bottom right features a "Video: Digital Scrapbooking" section with thumbnails and a "Content Producers: Digital Scrapbooking" section.

Why scrapbook the conventional way? It's messy and become pretty expensive. To continue scrapbooking without all of those troubles you might want to introduce yourself to free digital scrapbooking.

# Timelines

- [xtimeline](#) – “best of the bunch for classroom use.”

- Timelining inspiration:

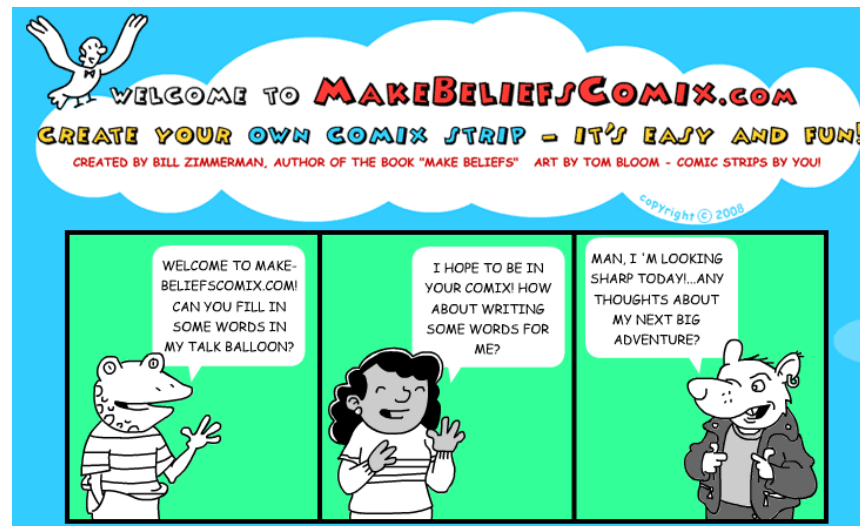

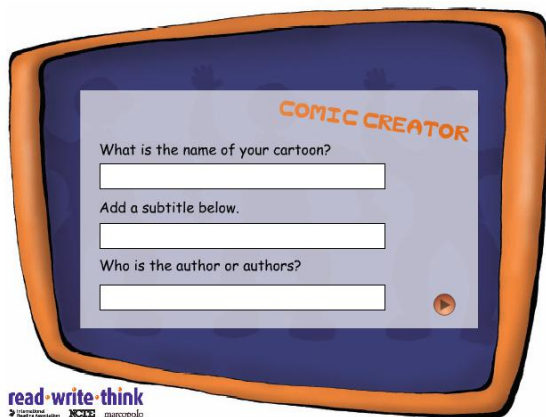

<http://www.schoollibraryjournal.com/blog/1340000334/post/260011426.html>

The screenshot shows the xtimeline website interface. At the top, there's a navigation bar with 'Explore', 'Create', and 'Groups' buttons. Below this is a search bar with the placeholder text 'search for a timeline, event, group'. The main content area is titled 'Featured Timelines' and displays two featured timelines. The first is 'History of Sports Car Racing' with 24 events, 799 views, and 2 likes, created by 'bharat' from 'arts-entertainment'. The second is 'Franklin D. Roosevelt' with 34 events, 1239 views, and 4 likes, created by 'johnabraham'. To the right of the featured timelines is a green box titled 'Create a timeline!' which describes xtimeline as a free web-based timeline tool and includes a 'Take the tour >>' link. Below this box is a preview of a timeline titled 'Google: Company History And Milestones' showing various milestones from 1918 to 2000.

## Writing and Reading from the Inside Out

*Nancie Artwell*

**1980:**

*At the beginning of her teaching career, Artwell considered herself an expert. One who knew what IS literature, reading, and writing. She reinforced the stereotypes by teaching English as a body of knowledge a few would get.*

*She focused on the elite, the gifted ones, the ones she'd recognized and elevate. She took her time after school to support and tutor. She was the bus driver on the literate bus only open to "club" members*

*Artwell then began to reconsider her literate environment and decided, after much research, to turn her classrooms into writing and reading workshops.*

**Educational Technology - Technology tools for learning and assessment**  
Source: [edtech-mi.blogspot.com](http://edtech-mi.blogspot.com)  
This is a place for me to share some of my works and get some feedback on some of my writings. I hope that you enjoy this Blog site. This site will discuss educational technology as a tool for student learning and to help create balanced student assessment. ...

## All services

Windows Live ► All services

### Windows Live

#### Home

Get a quick view of your world—e-mail, invitations, and what's new with your network.

#### People

Manage your contacts from Hotmail, Messenger, and Profile, all in one place.

#### Photos

Post your favorite shots online in beautiful slideshows that only the people you choose can see.

#### Events

Plan your next event with customized invitations, a guest list, RSVPs, and a place to share online.

#### Spaces

Express yourself with your own customized webpage—add a blog, photos, videos, and more.

#### Family Safety

Help protect your kids online, with customizable web filters and contact management.

#### Downloads

Download Windows Live Essentials—free programs for your PC, including Messenger, Mail, Photo Gallery, Movie Maker, Writer, Toolbar, and Family Safety.

#### Profile

Share your world online—your activities, your photos, and the people you know.

#### Mail

Get fast, easy, reliable e-mail from Hotmail, with more spam protection and plenty of storage.

#### Calendar

Check your schedule, share calendars with others, and get reminders when you need them.

#### Groups

Bring your team, club, or other group together with a webpage, calendar, and more.

#### SkyDrive

Store the files you need online and share them with the people you choose.

#### Mobile

Stay in sync from the road, with Windows Live on your web-enabled mobile device.

# ACTIVITIES...

# http://www.mystudiyo.com/

The screenshot shows the MyStudiyo website interface. At the top is a dark navigation bar with the MyStudiyo logo on the left and links for CREATE QUIZ, MY QUIZZES, FORUM, FAQ, CONTACT US, and BROWSE in the center. On the right of the bar is a search bar and a red button labeled SIGN UP | LOGIN.

The main content area is divided into several sections:

- Left Column:**
  - A large text block: "Create great-looking quizzes for your website or blog, for FREE!"
  - A "View examples:" section showing a grid of six quiz thumbnails. To the right of the grid, it says "MyStudiyo Quizzes Served: 17,321,013".
  - A "Popular Content Gallery" section with a list of category links: [arts & culture](#), [books](#), [business & finance](#), [celebrities](#), [comedy](#), [education](#), [entertainment](#), [family & friends](#), [fun](#), [games](#), [geography](#), [history](#), [lifestyle](#), [math](#), [movies](#), [music](#), [people](#), [politics](#), [religion](#), [science](#), [sport](#), [technology](#), [trivia](#), and [tv](#).
  - A large dark button at the bottom left that says "Create a Quiz" with a blue pencil icon.
- Right Column:**
  - A section titled "How will MyStudiyo improve your website?" featuring a collage of various quiz and scoreboard examples.
  - Four rounded rectangular boxes with icons and text:
    - Icon of a red TV: "Great multimedia quizzes in just minutes" with a "Create now >" link.
    - Icon of a green gift box: "Scoreboards, channel pages & more. Plus, it's FREE!" with a "Learn more >" link.
    - Icon of a yellow bee: "Increase the traffic and stickiness of your site" with a "Learn more >" link.
    - Icon of a grey building: "Need a scalable solution? Get MyStudiyo Premium" with a "Learn more >" link.

## Hot Potatoes Home Page

### News - 5/11/2008

- Beta 6.0.2.17 of [Java Hot Potatoes](#) released. Previous build introduced 2 minor corruptions, those are no longer there.
- Version 6.2.5.2 for Windows has been released. Get it from [Downloads](#). This release has one bugfix, explained on the [Bugs page](#).

### Hot Potatoes version 6

- The current version of Hot Potatoes for Windows is version 6.2. Check out the [FAQ](#) for a list of new features added since version 5, and [download it](#) from here.
- Java Hot Potatoes is targeted for Mac OS X, but will run on any computer running the Java Virtual Machine 1.4 or newer (including Linux and Windows). To download, go to the [betas page](#).

### What is Hot Potatoes?

The *Hot Potatoes* suite includes six applications, enabling you to create interactive multiple-choice, short-answer, jumbled-sentence, crossword, matching/ordering and gap-fill exercises for the World Wide Web. Hot Potatoes is not freeware, but it is free of charge for those working for publicly-funded non-profit-making educational institutions, who make their pages available on the web. Other users must pay for a licence. Check out the Hot Potatoes licensing terms and pricing on the [Half-Baked Software Website](#).

[FAQ](#)

[Advanced](#)

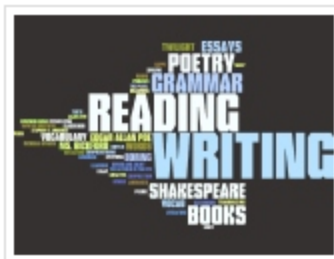

**W**ordle is a toy for generating “word clouds” from text that you provide. The clouds give greater prominence to words that appear more frequently in the source text. You can tweak your clouds with different fonts, layouts, and color schemes. The images you create with Wordle are yours to use however you like. You can print them out, or save them to the Wordle gallery to share with your friends.

# Welcome to Evernote.com

The screenshot shows the Evernote.com homepage. At the top, there's a navigation bar with links for 'About', 'Settings', 'Sign out (icu2)', 'Invite a friend', 'Upgrade / Gift', and 'Support'. A search bar is on the right. Below this, a header indicates 'Showing 1 notes in icu2's notebook'. The left sidebar contains a 'Notebooks' section with 'icu2's notebook' selected, and other sections like 'Sharing', 'Tags', 'Attributes', 'Saved Searches', and 'Trash'. The main content area shows a 'Welcome to Evernote!' message with a timestamp of '10/28/08 9:19 PM' and a URL 'http://280slides.com/'. The bottom of the page has a footer with links for 'Downloads', 'Blog', 'Developers', 'Contact Us', 'Technical Support', 'Terms of Service', and 'Privacy Policy', along with the copyright notice '© 2009, Evernote Corporation.'

- Perfect memory is waiting just behind this popup.
- Evernote is here, there, and everywhere just waiting for you to feed it notes, ideas, pictures, to-dos, web pages, PDFs, and more.
- Here are some suggestions to help you get started:
  - Make a new note and type some text, attach an image, PDF, or audio file;
  - Install Evernote on your desktop, sign in, and see that same note appear;
  - Clip a web page using our clipper, hit sync, and it's available everywhere
  - BONUS: If you drag, attach, or email an image into your account that contains printed or handwritten text, we'll make it searchable. Just sync it and our servers will start working their magic.

# stories, poems, offline projects, and interactive learning games

- <http://www.inklesstales.com/>

The screenshot shows the Inkless Tales website with a vibrant orange and yellow header. The header includes the 'INKLESS Tales' logo, a fish icon, and circular buttons for 'STORIES', 'POEMS', 'GAMES', and 'MORE'. A 'SHOP' banner is also present. A newsletter sign-up box is in the top right corner. A yellow banner below the header reads: 'YOU can do anything. TRY, TRY again. DON'T give up. EXPERIMENT. Write, draw, explore & more.' Below this is a navigation bar with links: '★Stories ★Games ★Poems ★Finger Puppets ★Color! ★Crafts ★Science ★Inkless Tunes ★The Animated Alphabet ★Podcasts! ★Grownups'. A green banner follows with: '★ Creativity! Be inspired! Write your own stories and poems, too! ★Games: Play and learn! ★ Offline Fun!'. A blue banner at the bottom of the header says: '★ What People Are Saying About Inkless Tales: See Below. ★ Parents & Teachers: SIGN UP FOR THE NEWSLETTER & get a FREE GIFT.' The main content area is a grid of purple boxes. The first box on the left contains a red 'X' icon and the text 'This plugin has been blocked for your protection.' The other boxes contain: 'Try the Animated Alphabet' (with a 'W' icon), 'Color Online or Print the Page!' (with a drawing icon), 'Play Fun Games!' (with a colorful circle icon), 'MORE! FINGER PUPPETS DOWNLOAD! CRAFTS OFFLINE FUN' (with a red arrow icon), 'The Mathematical Mother Goose' (with a circular logo), 'Read Stories' (with a cartoon boy icon), 'Read, Listen to, and even write Poems' (with a night scene icon), 'inkless TUNES Elizabeth Williams BUSHEY www.INKLESSTUNES.COM' (with a music note icon), 'Learn Science' (with a brain icon), and 'Tongue Twisters' (with a cartoon girl icon).
